

E26 BASE

Dimmable

Technical Specifications

Model No.:	VO-SPW12-120-26-D-3WAY
Input Power	12W
Lumens	1000LM
Efficiency	83LM/W
Input Voltage	120V
CCT	3000K/4000K/5000K adjustable
CRI	>80
Additional Function	CCT adjustable
Certification	ETL
Product Finishing	Black
Life Time	25000 Hours
Operating Temperature	-40°F to 122°F
Storage Temp	-40°F to 176°F
Warranty	3 Years Limited

Description:

VOTATEC's LED adjustable spiral LED adding luxury style to your home is as simple as screwing in a light bulb with Spiral LED Bulbs. The sculpted form of this elegant bulb twists and bends around itself, inspired by the symmetrical structure of a double helix. Bulbs feature a matte black finish with a frosted lens for soft, even light distribution.

Features

- Input voltage: AC 120V 60/50Hz
- %10-%100 dimming capability, This fixture is compatible with most leading and trailing edge TRIAC dimmers
- Color rendering index: 80
- Lifetime rated for greater than 25000 hours
- Beamangle 120°

Applications

These bulbs fit into medium E26 household sockets. Hang them from pendant lights or screw them into wall sconces for a modern update to traditional lighting.
